The municipal election in Sedalia Tuesday ended last night a systematic campaign for a cleaner Sedalia by the election of J. W. Mellor (Dem.) mayor, over J. L. Babcock (Rep.) by a majority of 161.

The election was the hottest ever waged in Sedalia and ended a campaign of weeks with the slogan, "Let's Make Sedalia Clean."

Not only did the democrats elect a mayor, but also marshal, police judge, city attorney, assessor and aldermen in the Second and Third wards, while to the republicans fell the lot of collector, treasurer and aldermen in the First and Fourth wards.

Howard Wood, democratic candidate for chief of police, left the entire ticket, his plurality over J. H. Bower, republican, being 953.

One of the surprises of the day was the election of Eugene W. Couey, democrat, to the office of city attorney, over W. W. Blain, republican.

Rain began falling yesterday morning and continued throughout the day. Shortly after the dinner hour snow mingled with the rain, making the day one of the most disagreeable of the year.

In spite of the inclemency of the weather party workers were hustling to and fro in the interest of their candidates and at 5:30 o'clock the republicans began despairing and gave up hopes of winning the campaign.

As early as 6 o'clock last evening, twenty-six minutes before the polls closed, inquiries began pouring into the Democrat-Sentinel office, and from that hour until midnight hundreds and hundreds of calls were answered from citizens, men and women, in all parts of the city and county.

TODAY.

ALL ARE JUBILANT AT RESULT

Messages of Congratulation Came
Today Expressing Happiness Over
the Results of the Election
of Mr. Mellor.

Mayor-elect Mellor had hardly awakened this morning before he began receiving congratulations over the telephone and in person from hundreds in the city, while from outside came many messages of good will from friends and acquaintances. The St. Louis Republic this morning had his majority at 111, and based on that Rutledge Mellor, son of the next chief executive wired as follows:

Three aces look good. Heartiest congratulations and best wishes.—Rutledge.

Among other messages received were the following:

St. Louis, April 6.—Heartiest congratulations. Best wishes for a clean city, with a mayor of whom we are proud.—Leonard Gold.

St. Louis, April 6.—Can't keep good men down. Congratulations.—C. W. Thomas.

A DEMOCRATIC DAY

ELECTION OVER THE STATE AND
NATION SHOW DEMOCRAT-
IC VICTORIES.

HARTFORD CONN. TOO THAT WAY

In Missouri Every City Got Into Line
Except Kansas City, Which Had
Local Issues to Consider—
Almost a Landslide.

Democrats won in municipal elections throughout Missouri yesterday, excepting in Kansas City, where the Hadley police machine and an unusually large negro vote swung the republicans into power, displacing a democratic administration.

Darius Brown was the successful mayoralty candidate in Kansas City.

late in the afternoon, a remarkably heavy vote was cast.

Governor Hadley spent the day in Kansas City and did everything in his power to insure the election of the republican ticket.

Democrats Carry Springfield.

Springfield, Mo., April 6.—Robert E. Lee (Dem.) was elected mayor of this city by a majority of 419 over J. H. Rathbone (Rep.). The rest of the ticket is mixed. The republicans elected are: Charles W. Page, police judge; Lee Patterson, assessor; Dennis O'Neal, collector; Charles Dalrymple, treasurer. The democrats elected: Perry T. Allen, city attorney; Thomas Hunter, city marshal. The democrats elected six out of eight candidates for the council.

Joplin Goes Democratic.

Joplin, Mo., April 6.—A democratic landslide today resulted in the election of seven democratic councilmen and one republican. This balances the city council, making eight democrats and eight republicans.

Democrats Carry St. Joseph.

St. Joseph, Mo., April 6.—Alva H. Clayton, democrat, was elected mayor of St. Joseph over former Congressman Frank B. Fulkerson, republican, yesterday. All of the democratic ticket, except auditor, was successful.

Democrats Carry Jefferson City.

Jefferson City, Mo., April 6.—With little interest manifested in the result by either party, the democrats carried Jefferson City yesterday by a small majority, electing four out of five members of the council to be chosen and tying the republicans for the fifth member. J. Frank Morris and Robert L. Berry were elected councilmen in the First ward, Thomas Niles in the Third ward, former Mayor Wallau in the Fourth ward, and Edward S. Austin, a former St. Louis newspaper man, the republican candidate, tied Frank H. St. George, his democratic opponent, in the Second ward. A. P. Grimshaw (Rep.) and John F. Heinrichs (Dem.) were chosen members of the school board. The city voted almost unanimously to extend the corporate limits to take in about 1500 people.

Ladies' Musical Club

The members of the Ladies' Musical club held an excellent chorus practice at the Elks' club rooms this morning, after which tickets were distributed among the members to sell for the New York Symphony orchestra concert, to be given at the Sedalia theater on the night of June 4.

Omaha, Neb., April 6.—Nearly a hundred high school boys, working under the direction of Census Enumerator Charles L. It is expected that the work of the boys will be of great assistance in taking the official count, which begins April 15, and will aid the regular

MEETINGS ARE SUCCESSFUL

East Broadway Christian Church Is
Holding Them Nightly.

In spite of the inclement weather a goodly number of people are gathering nightly at the East Broadway Christian church to hear Prof. Robert C. Davis' effective solos and the Gospel taught by the Rev. S. W. Nay. Rev. Nay preached a very impressive sermon last night, in which he illustrated the importance of being real, genuine men and not merely things.

At the close of the sermon two united with the church and signified their intention of giving to Christ a larger and better service.

The pulpit platform is being enlarged today to afford room for a chorus of some fifty voices.

On Friday night there will be a special service for young people, to which the students of the high school, the Central Business college and the telegraph school are especially invited. All children over 9 years of age are also invited.

His recent fight as a member of the city council against extending a street railway franchise added to his popularity. His majority was approximately 2200.

Mayor A. P. Clayton (Dem.) was re-elected in St. Joseph by 2,000. He carried the rest of the ticket with him, with one exception. Mayor Clayton's victory makes him a formidable candidate for the next democratic nomination for governor, an office to which he aspires.

Springfield went democratic. Democrats won seven out of eight council seats in Joplin, and Jefferson City also dropped into line, even Governor Hadley's home ward, heretofore a republican stronghold, deserting the republicans.

Kansas City Went Republican.

Kansas City, Mo., April 6.—Darius A. Brown, republican, has been elected mayor over Andrew F. Evans, democrat, by about 2800, and practically all of the city offices will, during the next two years, be occupied by republicans. The few exceptions will be members of the upper and lower house.

Although the day dawned rainy and cold and the sun did not emerge until

EDITORIAL

The citizens of Sedalia by their votes yesterday declared that they wanted to make Sedalia clean, and upon that platform they elected a mayor and a majority of the city officials. The issue was put before them clearly and forcibly and during the entire campaign there was no evasion or equivocation in regard to it.

The verdict returned demonstrates that a majority of the people believe in the right thing, and further, that they are thinking. It would be folly to claim the result of the election to be a party victory, because every one must know that republican votes helped to elect the ticket.

But it can be said that it is a party victory to this extent, that when the democrats do the right thing, nominate the right kind of men, upon the right sort of a platform, and courageously stand for their principles, the foundation of which are decency and order and a government of and for the people, they can win.

The lines of demarcation during this campaign were clearly drawn and just as clearly was the decision rendered. This one fact was demonstrated, there are more good people than bad, and if given the chance the good ones will place themselves in evidence. More and more is the tendency growing for men to reason; more and more is the idea of good government spreading; more and more is the sentiment of law observance taking hold of the masses, and that party which recognizes this fact and stands for better things will surely win.

The people have elected Mr. Mellor mayor as an exponent of decent municipal government and into his hands is now placed the fulfillment of the pledges that he himself made and his friends made for him during the campaign. The Democrat-Sentinel believes that he will keep them to the letter and that he will give Sedalia that to which she is justly entitled, the best possible sort of government under the law. To do this he will have the help of all good citizens, irrespective of party, and irrespective of the positions they held in the contest.

Mr. Mellor is now Sedalia's mayor. Not the democrats' mayor, nor any faction's mayor, but mayor of the whole people, and has it in his power to accomplish great things in the coming two years. The Democrat-Sentinel believes that he will do these things, and looks forward confidently to a city governed, not as well as any others, but better than any others.

Let us all take hold and do our part toward this great consummation.

nose counters in finding every man, woman and child in the Nebraska metropolis. It is confidently predicted that the census will show that Omaha's present population is nearly double what it was ten years ago, when it was 102,555.

This plan was evolved by Mr. Saunders and will be paid for by the business men of Omaha. Official enumerators have been hard to secure in Omaha. Feeling it necessary to have some means of checking them, Mr. Saunders proposed the boy census takers.

The government furnishes enumerators with all the preliminary blanks they need, printed on white paper, with the schedules on one side and directions for reporting on the other. These schedules will be taken out by the high school boys and one left for each family in the city.

The city has been divided into ninety-three districts. Each boy will have a district and will be expected to leave a schedule with each family and also to make a count of his own.

All the report each boy will have to make is on small cards about the size of a postal card. On these he writes the number of every house in his district, together with the total number of people sleeping in that house. His count ends there, and he leaves the schedules to be picked up by the official enumerators if they are filled in; if not the enumerator must ask the questions and do the filling in.

The boys' cards will show the total number of people in each district, and working in the same districts the official enumerators will be expected to get an equal number or be sent back over their routes.

The campaign to get every one counted will be extended after the official count, the Omaha business men having published thousands of cards to be mailed or sent in to the Commercial club by people who did not see the census man. The city wants to get into the 200,000 class.

In addition to the telephone inquiries throngs of people assembled at the Democrat-Sentinel office to learn the election returns and all were jubilant when the votes were counted and it was officially announced that Mr. Mellor had been elected the chief executive of the city.

The fight made by the democrats for a cleaner Sedalia was one of the most gallant ever waged in this section of the state, and the joyous spirit of every party worker and elected candidate was evident from the hour the polls closed.

THE INSURGENT EAST.

The Chicago Tribune, the leading
republican newspaper of the middle
west, which some months ago polled
the republican editors of the west-
ern states to ascertain their views on
the Aldrich tariff law, has just made
public the results of its more recent
poll of eastern republican editors on
the same subject.

The result shows that the eastern
editors of the republican persuasion
are, if anything, even more strongly
opposed to the Aldrich tariff than
their western brethren.

Seven hundred and seventy-one re-
publican editors in the states east of
the Alleghenies answered the Trib-
une's questions. Of these 590 declar-
ed that they do not endorse the Ald-
rich law. Only 181 do endorse it. Six
hundred and seventy assert that Can-
non is not their choice for speaker,
while 151 are willing to go on record
in Uncle Joe's favor.

Perhaps the most astounding fea-
ture of the Tribune's poll is the fact
that the opposition to the Aldrich tar-
iff law is found to be stronger in
"rock-ribbed" New England than in
any other section of the country. The
west is no longer the seat of insur-
gency. The movement has spread to
all points of the compass. A larger
per cent of republican editors are
against the tariff in New England
than in the west.

The Tribune's figures show 82.5 per
cent of the New England republican
newspapers against the tariff, as
compared with 74 per cent in the
middle states, 77.1 per cent in the
west and 62.8 per cent in the south.
The percentage for the country at
large is 74.1 per cent, or practically
three-fourths of the republican press
of the nation lined up against the ad-
ministration in the matter of the
tariff.

The press is a reflex of the people.
It is not unreasonable to assume that

the percentage of republican new-
spapers recorded for and against the
Aldrich tariff law is a fair represen-
tative of the attitude of the individ-
ual members of the republican party
on the same question. There is little
reason to doubt that three-fourths of
the republican editors of the country
are disgusted with the administration
tariff record.

Recent events, such as the election
in Massachusetts, where a republican
majority of 14,000 in a congressional
district has just been transformed
into a democratic majority of 5,000,
confirms this view.

And still, in the face of all these
evidences of revolt, President Taft
continues to call the Aldrich bill "the
best tariff law ever made" and per-
sists in lauding the men responsible
for it.

Not until the November elections
have made it too late, evidently, will
the president and his advisers take
heed of the great and growing dis-
satisfaction in their own party ranks,
which has already been made so plain
that he who runs may read.

It is too bad that so good a man as
Governor Harmon seems to be, judg-
ing from his record as chief executive
of Ohio, should have the endorsement
of two such political crooks as Rog-
er Sullivan and Charles F. Murphy
thrust upon him. With the memory of
the Parker fiasco as a horrible exam-
ple of the fruits of the "friendship"
of such factors, Governor Harmon
may well pray to be delivered from
his "friends."

The late Justice David J. Brewer
was "nearer the people" at least in
one sense than any of his colleagues
on the supreme bench. He frequently
appeared in public and was outspoken
in his comments on issues of the day.
He chose to exercise his privilege as
a citizen to express his views on mat-
ters of public interest, and did not
consider it at all incompatible with
the dignity of his position to do so.
And it may be said that most of Jus-
tice Brewer's views were such as to
commend him to his countrymen. He
was a strict constructionist of the
constitution and deplored all attempts
to stretch it to fit the occasion. He
preached the doctrine of individual-
ism and was strongly opposed to pa-
ternalism and the imperialistic and
military tendencies of recent admin-
istrations.

The modern Egyptians have re-
ceived an impressive demonstration
of the vast difference there is be-
tween Bwana Tumbo and the Sphinx.

John Bull heaved a great sigh of
relief when the Back From Elba out-
fit pulled out of Cairo.

THE THIRD HOUSE

Editor Democrat-Sentinel.

Your leading article in the railroad
news last evening, evidently compos-
ed by a railroad press agent, certainly
depicts conditions between railroad
managers and the men who earn the
money for them, as they should be.

But in contravention of what is
there set forth, allow me to say that
actual conditions are directly op-
posite. The trainmen, and especially
the engineers, are harassed from the
time they start on a trip until they
finish. And they frequently are called
out of bed to go to the office and an-
swer a pusillanimous red tape ques-
tion, when they ought to be asleep.

In fact, ask any engineer you know
and he will tell you that railroad-
ing these days is HELL.—Ex-Engineer

O'BANNON FOR PROSECUTOR

Young Sedalia Attorney Asks Demo-
crats to Support Him.

In this issue of the Democrat-Sen-
inel appears the announcement of the
candidacy of Mr. W. D. O'Bannon,
who seeks the nomination for pro-
secuting attorney, subject to the will of
the democratic primary. Mr. O'Ban-
non is one of Pettis county's progres-
sive young men, a true democrat and
a model citizen.

He was born and raised in Pettis
county, his birth place being near
Hughesville. He grew to manhood in
this county and received his rudimen-
tary education in the rural schools
of Hughesville, later coming to Se-
dalia, where he attended and grad-
uated from the Sedalia schools. He
was awarded a gold medal for oratory
in the contest between the juniors
and seniors of the High school. Mr.
O'Bannon is a lawyer by profession,
having by hard work and study mas-
tered the profession and earned to
his present elevation through per-
sistent work and study. During his
educational career he studied law in
the office of Mr. W. D. Steele and
assisted Mr. Steele in a great number
of cases. He is every way a self-
made man.

Six months after he graduated from
the High school he was admitted to
the bar, and for the past several
years has been actively engaged in
the profession. He represents one of
the oldest families in the county, his
great-grandfather having been one of
the first six settlers in the county. In
the practice of law he has been
identified with a great many of the
most important cases in the local
courts in the past six years. In 1904
he was ward committeeman from the
First ward; 1906 and 1908 he was
secretary of the democratic county

THE DR. CASTO MEDICAL CO.,

The recognized expert Specialists of the west, in the treatment of all diseases of the air passages. Our advanced methods of direct inhalation into the diseased structures by our wonderful Inhalatorium Cabinet Treatment is unsurpassed for immediate result. It is the most scientific equipment ever devised for speedily destroying the million of poisonous germs that feed upon the delicate tissues of the lungs. As proof of our great work, we publish herewith an account of a most interesting case—one whose condition was far advanced with large cavities in the lungs. She took a course of treatment last spring and it is a pleasure for us to re-publish her testimonial and a later statement from her, as it shows that our cures are permanent. She recently visited our city, and has stood the rigor of the unusual severe winter in a most remarkable manner. Her latest statement will verify all our claims.

CONSUMPTION OF THE LUNGS

MISS OPAL EVANS.

Miss Opal Evans is a very attractive and popular young lady of Eldon, Mo., who sought our aid eight months ago, none too soon, for upon examination, we found her with a terrible cough and suffering from all the symptoms of the advanced stages of consumption, with the ever present germs of that dreaded disease invading her whole system, which was verified upon microscopic examination; but we are pleased to state that her condition has yielded to our Inhalatorium Treatment, combined with our antitoxin injections. One lung was much involved with large cavities and we were obliged to make a number of injections directly into the lung tissue to overcome the disease. She is now out of danger and wonderfully improved.

Dr. Casto, Chief Physician of the Dr. Casto Medical Co.
Dear Doctor:—Words fail to express the high appreciation with which I regard your wonderful methods of treatment of lung diseases. Last winter I contracted a heavy cold that settled deeply into my lungs and side, I could get no relief. My parents became alarmed and concluded to seek the best medical aid obtainable. My father placed me under your care, and after a three months' course of your Inhalatorium Treatment, I can say that the results are most satisfactory, and it is a pleasure for me to recommend you as a Specialist of great skill in the treatment of such conditions.
Yours truly,
OPAL EVANS, Eldon, Mo.

Dear Doctor Casto,
It has now been some eight months since I began your treatment for lung troubles, and I am truly thankful for the great good you have done me. I have gained 16 pounds in weight and never felt better in my life.
Yours very truly,
MISS OPAL EVANS.

This Wonderful New Treatment

The phenomenal success and wonderful cures made by the Dr. Casto Medical Co.'s new system of treatment for diseases of the air passages has attracted wide attention. The great fight here being waged against the germs that cause Catarrh, Throat Trouble and Consumption is meeting with a just reward. Many patients come from long distances to avail themselves of this wonderful cure, and after taking the treatment, they generously come forward and announce the results for the benefit of other sufferers. Come to us in time and you can be restored to health.

GETTING ANXIOUS

CORPORATIONS ARE RESTLESS WHILE WAITING FOR SUPREME COURT DECISIONS.

BREAK IN A FAMOUS QUINTETTE

Justice Brewer Was First of Five Men on the Supreme Bench Over Three Score and Ten to Pass Away.

Washington, D. C., April 6.—As the time approaches for the decision of the United States supreme court in the American Tobacco and the Standard Oil Co. cases, the big corporations are manifesting a spirit of uneasiness that augurs ill for business during the summer. Prior to the enactment of the corporation tax it was estimated that there were in round numbers some 400,000 corporations. Up to the present time returns to the treasury department show that approximately 245,000 corporations have made their returns. How many of these will come under the operation of the Sherman anti-trust act it is impossible to tell, but that a great many are liable it is not to be doubted, and the uncertainty of what corporations will be affected injuriously adds to their anxiety.

The White House and treasury department have been flooded with letters from corporations showing the deep interest in the two cases mentioned and the case of the corporation tax. Officials of the administration in close touch with the situation frankly admit that they are at a loss to advise in the present situation. They expect the supreme court to uphold the government's contention in both the American Tobacco and Standard Oil cases, and by its decision point out a way of dealing with corporations in restraint of trade, both large and small.

President Taft holds that the Sherman anti-trust law makes unlawful certain methods of carrying on business, which, before its passage, were regarded as evidences of business sagacity and success, and that they were denounced in this act not because of their intrinsic immorality, but because of the dangerous results toward which they tended. He holds that in the first section of the anti-trust law, every contract, combination in the form of trust or otherwise, or conspiracy in restraint of interstate or foreign commerce is unlawful.

The question follows as to how Mr. Taft proposes to enforce the Sherman act if the decisions are in favor of the government. He says it is his duty and his purpose through the department of justice to investigate the history, organization and purposes of all industrial companies with respect to which there is reasonable ground for suspicion that they have been organized for a purpose and are conducting business on a plan which is in violation of the Sherman anti-trust act.

He admits the task to be gigantic, but believes it not beyond the power of the department of justice if congress will allow sufficient funds to carry on the investigation and pay counsel engaged in the work. Much work of this character has already been done and there are good grounds for belief that the department of justice is only waiting for the decision in the oil and tobacco cases to proceed to the prosecution of a half dozen or more combinations most conspicuous in their violations of the law.

The president foresees that such an investigation and possible prosecution of corporations whose prosperity or destruction affects the comfort not only of stockholders but of millions of wage earners, employees and associated tradesmen, most necessarily tend to disturb the confidence of the business community, to dry up resources of capital and to produce a halt in our prosperity that will cause suffering and strained circumstances among the innocent many for the faults of the guilty few.

At the same time, he is unwilling the responsibility of deciding as to the "good" and "bad" trusts should be turned over to the courts. It is entirely improbable that he will care to assume them himself. Through all consideration of the question he insists that the suppression of competition, the controlling of prices and the monopoly or attempt to monopolize in interstate commerce, are not only unlawful but contrary to the public good, and they must be restrained and punished until ended.

Brewer, of the supreme court, makes a break in the quintette of men over three score and ten occupying high official positions. The remaining four are Chief Justice Fuller, Justice Harlan, Speaker Cannon and Secretary of Agriculture Wilson. Each is several years beyond the Scriptural limit. Secretary Wilson approaching his 75th birthday and the others being several years younger.

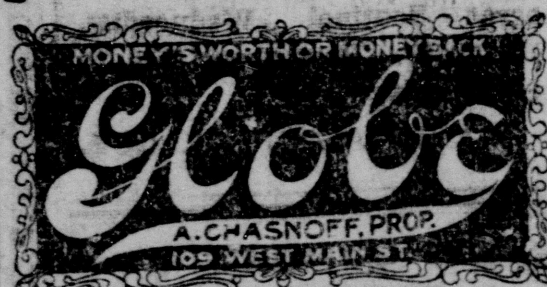

Before the end of his term President Taft will likely be called upon to appoint the successors to the chief justice and to Justice Harlan, both of whom have long been eligible for retirement.

Speaker Cannon has undoubtedly passed the climax of his greatness, and the chances that he will again occupy the speaker's chair after the completion of his present term are practically nil. The retirement of Full-

ler. Harlan and Cannon will leave Wilson as the only septuagenarian on the official stage. It is reported that Wilson is imbued with the idea of dying in harness and that he will remain in the cabinet until his death or a change in the administration necessitates his retirement, notwithstanding the evident marked impairment of his administrative abilities. According to another story, the venerable secretary is holding on with the hope of landing Dr. H. W. Wiley. He is said to credit himself with the "firing" of Pinchot, whose prominence and influence as one of his subordinates was not relished by him. That he is even more antagonistic to Dr. Wiley is not denied by any one, and it may be that he will hang on long enough to oust the latter. Dr. Wiley is just as determined as Secretary Wilson, however, and is very careful these days to give no excuse for separating him from the public service.

In some quarters the opinion exists that the approaching conclusion of the Pinchot-Ballinger case may have a bearing on Wilson's position in the cabinet. He appeared before the joint congressional committee only long enough to enter a half-hearted semi-denial to Pinchot's statement that he had his superior's permission to write to Dolliver. Pinchot is on his way to meet Roosevelt, and will undoubtedly report to him his version of the circumstances leading to his sudden dismissal. As he as good as told the committee that he felt he had been misjudged by Taft because of the representations made by Wilson, the interview between Roosevelt and Pinchot is apt to be followed by a shower of sparks for every one knows the confidence which Roosevelt reposes in the former forester, which is shared by the public at large.

The solicitude of the president for the support of the Ohio republicans in congress for his measures has revived the rumor that at the first opportunity he will confer recognition upon his state by giving it a cabinet portfolio. The friends of R. W. Dunlap, the Ohio commissioner of agriculture, have not abandoned hope that he will be appointed secretary of agriculture if Secretary Wilson leaves the cabinet before 1913. It is rumored that after the Pinchot Ballinger committee reports its conclusions, Secretary Ballinger will retire, and there is some ground for belief that Secretary Dickinson may leave the cabinet to become a candidate for the senate.

Ohio has as yet no candidate for either the war or interior portfolios. But Mr. Dunlap's equipment, as a well educated, young and progressive practical farmer with the record of a successful administration of the department of agriculture in the president's own state, brings his name to the front every time the possibility of a vacancy is brought up.

Representative Scott, chairman of the house committee on agriculture, is credited with having entertained cabinet aspirations at one time, but becoming convinced that Wilson would never resign and that Taft would never call for his resignation, he abandoned them.

He Was Almost Dead.

When the Root Juice people were here hundreds of people flocked to the drug store to see them and get some of the great remedy, and after they left the great sale of the remedy continued because of the many remarkable cures it made. Many names of people living in this locality who were cured by taking a few bottles of Root Juice were published in this paper. The remedy is such a health-promoting agent that it creates great excitement in every city in which it is introduced. Mr. Albert Timlick, of Cantrell, Ill., wrote and said: "For a number of years I suffered with a severe stomach trouble and tried many kinds of medicine, but none did me any good. I was almost dead when I started on my first bottle of Root Juice, but as soon as I took three or four doses I began to feel better. Four bottles of the Juice made a complete cure of my troubles. I now have a good appetite and can eat anything I want. Before I took Root Juice I could not digest the lightest food. It would sour on my stomach and I would bloat fearfully. I digest everything I eat now. It has certainly worked wonders for me." Root Juice is a great healing tonic to the stomach, bowels, liver and kidneys. It is sold for \$1 a bottle. Three bottles for \$2.50 at Wilcox's drug store.

Saloon Thought No. 359

It looks NOW that the wets "put one over on us" yesterday in Illinois, but our people know too well the way the St. Louis papers color things WET, and we will pull out even if not ahead. We lost some large cities, it is true, but we gained in other localities MORE than enough to offset the wet gains in some of the larger places. These things are looked upon by some of our people as TERRIBLE losses, while there is really much good to come from these dry places going back wet.

It is estimated by the Anti-Saloon people that \$10,000,000 was spent in Illinois yesterday by the saloon people. Men with brains know very well that all this \$10,000,000 MUST come back to the saloon men by the way of the saloons, and that in reality each city that goes wet must pay its part of such amounts of money spent. The legitimate trades will plainly show this loss and again many decent people are compelled to see the corrupting influence of the liquor people to get back and this converts many that could not be otherwise converted.

Now that saloons are going back in some of these larger cities, the criminal court dockets, jails, almshouses, etc., will show a decided increase of business. More murders will be committed, and of course the tax rate MUST be advanced to offset these expenses, and many old moss-backs will be converted on the "TAX RATE." All the license money, rent for saloons, bar-keepers' salary and all the expenses the saloons are put to, will have to be footed by the families near these saloons, and anyone KNOWS that these people can't buy groceries, clothes, houses and house furnishings, etc., and other lines of business will notice the difference in COLLECTIONS. Men that have straightened up will commence to loaf around the saloons and cease to be earning capacities; this will all show up in the savings bank deposits, and business men galore will see this loss of business to them and that will be the mean of converting business interests that could not POSSIBLY be converted in any other way.

"It is an ill wind that blows no one good," and we will be BOUND to reap large good from these seemingly defeats.

While we feel a little SAD on one side, we feel "powerful glad" on the other, Michigan, day before yesterday, cleaned them out of TWELVE counties, and closed THREE HUNDRED SALOONS and SIX BREWERIES. The sun rose this morning with Michigan having FORTY-TWO DRY COUNTIES. While the wets are singing praise, to break in with "Grand Rapids, Mich., with 7,000 dry" the day before, would not exactly harmonize. We lose a little ONE place and gain a big chunk another. Depend upon the Anti-Saloon League; every single day the sun sets you can rely on the Anti-Saloon League drawing up just a little tighter on the spigot twisters, and while the brewers can BUY a place now and then, they come so fast and often that the people who have brewery stocks are not getting their dividends, and these people are trying to cut loose from their stocks, and this adds to the brewer's troubles. You depend upon it, the average paper does not print our successes; it is always our LOSSES. We have right this minute more than HALF of the entire United States dry, in area or population, and the government is now giving us better law enforcement in internal revenue department and we certainly have cause to rejoice. We are not SAD, not on your life, but we have come to solve the saloon business, and we are going to do it, and you can depend upon the Anti-Saloon League delivering the goods, and all the liquor trade can do is to cause us some trouble, and simply RETARD their death penalty.

IT WAS A DRY DAY.
Wets Got It In The Neck Tuesday. Chicago, Ill., April 8.—Nine counties and nine large cities and forty-one cities and towns in Illinois voted dry in yesterday's election. (This is a clipping from the Democrat - Sentinel Wednesday, April 8, 1908). How about this, to offset yesterday?

What Life Is.

Some games are decided by ability. Such are chess, checkers, polo, croquet and tiddlywinks. In others luck is everything, as in dice, roulette and some say love. In another class, of which poker is a notable example, bluff and chance are mixed. Human happiness and success are of the poker type.—Collier's.

HERE are five ways in which you get fooled in buying paint.

1. The paint is stuffed out with chalk or something like that.
2. With barytes; better than chalk; doesn't "cover"; you don't know it's there.
3. Benzine, or water, in the oil.
4. Too much liquid, whatever it is, for the solid, paint too thin.
5. Short Measure.

Here's one way you can be sure of quality:

Devoo Lead and Zinc Paint is all paint, full measure; lead, zinc, linseed oil, color and turpentine dryer, and nothing else.

TAXES IN THE OLDEN TIME

In the Reign of George the Third One Could Not Even Escape Them by Dying.

For taxes out of the common one must turn back to the days of George III. For in the reign of that monarch one was almost forced to "die beyond one's means." The army and the navy were in urgent need of money and the chancellor was at his wits' end. He thought of the dead and gravely suggested a tax on coffins. Which proposal recalls the day when one could not be born without involving a proud parent in a tax. A graduated tax. The birth of an eldest son, for instance, cost a duke as much as £30, whereas a cottager was forced to pay only two shillings. To be born with a silver spoon in the mouth cost money in those days!

Not only was there once a tax on hair powder, but hair itself has been called upon to pay its due share to the revenue. For beards were, at various times, taxed in England. Henry VIII. graduated his levy according to the status of the wearer, the sheriff of Canterbury, for instance, having to pay three shillings four pence for his beard, and Elizabeth fixed the same sum for every beard of over a fortnight's growth.

**WHY DO YOU
HESITATE?**

You have just paid another month's rent and have nothing to show for it. only perhaps, a notice from your landlord to vacate, as the property has been sold. Isn't it a fact you never know one month where you will live the next? It is worth something to own a home and feel secure. You can do this with a small payment down and the balance like rent. We have a choice new cottage of five rooms, modern except furnace, located in Dal-Whi-Mo addition, and a number of other houses any size you want, also well located. Come to our office and let us tell you how we can assist you in owning a home. We know you pay your rent promptly, why not be your own landlord and sole owner?

Latest Edition of E. P. Remington's Newspaper Directory Being Distributed.

E. P. Remington's 1910 Newspaper Directory, being the twenty-second annual edition, is just out. It contains an interesting compilation of newspaper statistics and values spe-

cially arranged in concise form for ready reference.

This book has full and complete lists of all newspapers and other periodicals published in the United States, Canada and Mexico, with their days of issue, politics and circulation and specially classified lists of the principal dailies, and the best agricul-

tural, religious, foreign language, scientific and trade publications and leading magazines.

In the general list the population is given of each town, county and state. All the lists are catalogued by towns in alphabetical order, thus enabling the reader to turn readily to any source of information he seeks and find just what he wants in the most compact and available form.

This directory will prove valuable to the man who wants to know quickly and surely about any newspaper or periodical published in the United States, Canada and Mexico. The Directory is issued from the office of Edward P. Remington, Newspaper Advertising, Jenkins Building, Pittsburgh, Pa. Price \$5—all charges prepaid.

RECEPTION LAST NIGHT

Dr. and Mrs. C. R. Carlos Were Honor Guests.

A delightful farewell reception for the Rev. Dr. C. R. Carlos and wife, the former pastor of the Epworth M. E. church, was given last night by John and Charles Bras at their home, 1010 East Fourth street, when more than forty lady and gentlemen friends assembled to bid them farewell.

Dr. Carlos and wife left today for Long Island, where the former will assume the pastorate of St. James church.

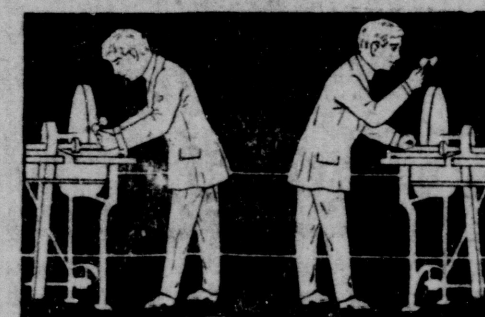

The program at the reception was made up of vocal and instrumental numbers, after which refreshments of ice cream and cake were served.

SUMMARY OF THE ELECTION RESULTS IN MANY CITIES

Elections were held in Missouri, Illinois, Kansas, Wisconsin, Texas, Connecticut and other states yesterday. In Missouri the elections were mostly municipal.

The republican ticket was elected in Kansas City, where both parties had made a vigorous campaign. The democrats carried St. Joseph, Sedalia, Maryville, Joplin, Springfield, Jefferson City, Clinton, Macon and many small towns.

Hartford, Conn., elected a democratic mayor, the first in many years, with the exception of eight years ago, when a democrat was placed in office on a fusion ticket.

Democrats see in the Hartford vote an indication of victory at the next general election in the state.

Topeka, Kas., also named a democrat to head the municipal government.

The issue in Illinois was mainly local option. The results indicate that the dry towns were in the majority. The larger towns, including Decatur, Bloomington and Rockford, voted wet. Galesburg went dry.

The republicans of Indiana, in the state convention at Indianapolis, denounced the Payne-Aldrich tariff, endorsing the stand taken by Senator Beveridge in opening the convention. The delegates declared for what practically amounts to another revision of the tariff.

THE 'MUST HAVES'

CATHERINE MANN - PAYZANT TELLS WHAT THEY ARE FOR WOMEN.

ONE IS THE TAILORED SUIT

In Coats This Year the Russian Influence is Greatly in Evidence, but So Modified as to Make Them Becoming.

(By Catherine Mann-Payzant.)

New York, April 6.—One of the first of the "must haves" in the spring wardrobe is the tailored suit. For morning wear the trottier skirt and jacket is most in evidence. They are made to clear the ground by two inches, and indeed all street gowns are in clearing length. For such skirts plaits arranged singly or in panel effect are popular. The deep hip yoke to which is attached pressed plaits, is also shown, and the back in habit style, the inverted plait, a panel of plaits or one of the double box order are also used.

One or two features mark the suit jacket as new. In the first place, new ones are shorter, reaching only a little below the hips. Semi-fitted backs are seen, while a slot seam in the middle of the back was shown in a suit of gray serge. The seam ended a little below the waist line, where a flap lapped over the left side and was fastened with one of the new horn buttons, a smart novelty just from Paris.

The Russian influence is seen in coats, and with the usual adaptability of the American woman it has been so modified that those characteristics which made it unbecoming have been lost. The blouse is kept only in effect with a slight fullness at the bust and drawn snugly into the belt at the waist. Sometimes there is a sidebelt only, with the flaps overlapping. The fullness once found under the arms, giving a bunched appearance, is done away with. The tunic or coat skirt is cut by a pattern that lies closely about the hips and comes very little below the hip line.

A Russian coat, of which there are many models, was made with a body and sleeve in one. The sleeve lies closely to the arm and shoulder, with no fullness beneath the arm. Intended for summer wear, the fronts did not close, and were fastened with black satin collar and revers, the ends tapering to points in the waist line. The fullness about the waist was disposed of by means of stitched tucks. The belt closed by means of a handsome buckle. The pleum or skirt portion should be long or short, according to its becomingness to the figure. Such a coat would be pretty made up in one of the shepherd plaids in black and white, trimmed with black satin collar and cuffs, belt and perhaps a band on the skirt. The skirt was straight and unbroken in its plaited lines. A touch of color for contrast or relief should be found in the tie, on the hat or perhaps on the buckle. The wearer of the model added as an accompaniment to this suit an all black hat, black gloves and bag, but three large red roses and their foliage gave that distinguishing note so dear to the well dressed woman.

An outfit consists of an inhaler, a bottle of Hyomei, a supply of antiseptic gauze, a medicine dropper, and full instructions for use. The inhaler is made pocket size, of hard rubber, and will last a lifetime. And bear in mind that extra bottles of Hyomei, if needed, cost only 50 cents.

Hyomei can be obtained at drug-gists everywhere and at W. E. Bard Drug Co., who guarantee it to cure catarrh, croup, sore throat, coughs and colds. A complete outfit \$1.00, which is mighty cheap for a remedy that has cured more cases of catarrh than all other catarrh specialists on earth.

North Pole Anniversary.

New York, April 6.—Today is the first anniversary of the discovery of the north pole by Commander Robert E. Peary. Informal celebrations will be held this evening by the local geographers and explorers. Commander Peary is now busy with his lectures and literary labors. Despite his denials, many of Peary's friends believe he will again yield to the lure of the polar regions and engage in the attempt to capture the south pole.

Stop That Cough or it will surely Stop You

We don't mean just stop the irritation in your throat—but cure the underlying cause.

Cough syrups cannot do this. It takes a constitutional tonic body builder to do the work properly—and cure you to stay cured.

If we cannot stop that cough with VINOL—our delicious cod liver and iron tonic—which is made without oil—we will not charge you a cent for the medicine you buy. This seems like a pretty fair proposition—and ought to be accepted. Don't you think so? With this understanding we ask you to try it.

Paterson, N. J., April 6.—A royal race is in prospect tonight at the games of the Fifth Regiment Athletic association. The star event is the three-mile handicap.

Last year Freddie Bellars, of the New York A. C., succeeded in leading George Bonhag, of the Irish-American A. C., to the tape, but this year the veteran Bonhag desires to add the Rutherford boy's scalp to the long list he has collected during the past year.

Display of Photographs.

New York, April 6.—One of the finest displays of photographic art ever shown in this city was opened today in the Metropolitan Life building in connection with the convention of the Professional Photographers' society of New York. The exhibition and sessions will continue three days.

Mrs. Nana Maclean, corsetaire, from the H. W. Gossard Corset Co., of Chicago, will be in the city a short time and will give professional fittings of this "Front Lace" corset, by appointment, at 609 West Broadway, or private residences. Call Bell phone 475.

To Meet Southern Fighter.

Memphis, Tenn., April 6.—Stanley Ketchel, the middleweight champion of the world, will meet Jimmy Howard, the southern middleweight champion, before the Memphis Athletic club tonight. Howard has fought some good men and has never been defeated, and there are many sports who believe that the champion will have his work cut out for him to win a decision over the husky and clever Dixie boy.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

YOUTH OF DIXIE

EDUCATIONAL CONFERENCE
FOR THEIR BENEFIT BE-
GINS TONIGHT.

PHILANTHROPISTS INTERESTED

The Entire Subject of Education Will
Be Gone Over and Plans Made
for the Advancement of the
Cause Through South.

Little Rock, Ark., April 6.—To enable the youth of Dixie to imbibe at the fountain of knowledge is the purpose of the conference of education in the south, which begins its thirteenth annual session in Little Rock this evening, to continue tomorrow and Friday. Robert C. Ogden, of New York, and other northern philanthropists and educators founded the movement, which now has the hearty support of the educational and commercial interests of the entire south. Educators and professional and business men from all over the country are here to take part in the initial session, which will open with an address of welcome by Governor George W. Donaghy, of Arkansas, followed by the address of President Ogden, of New York, and an address on "Education and Public Health" by Dr. Lewis, of Raleigh, N. C.

The program for the following days is as follows:

Thursday morning.—The conference will be conducted by the state superintendents of public instruction. Topics: 1. Educational Progress in the Southern States for the Last Ten Years. 2. Report of Educational Tour Through Iowa, Minnesota and Wisconsin.

Thursday evening.—Education for Efficiency in Rural Communities, Andrew M. Soule, University of Georgia, Athens. Teaching Girls How to Make Homes, Dr. L. D. Harvey, Menominee, Wis.

Friday morning.—Will be devoted to the work of the school improvement leagues and to community improvement through the influence of a home-like school.

Among the speakers: Henry Turner Bailey and Mrs. W. R. Hollowell. Thursday and Friday afternoons will be devoted to conference on agricultural education. Outline programs will be announced soon. The dominating question will be: "What is the Best Means of Making the Rural School Educate for the Farm?"

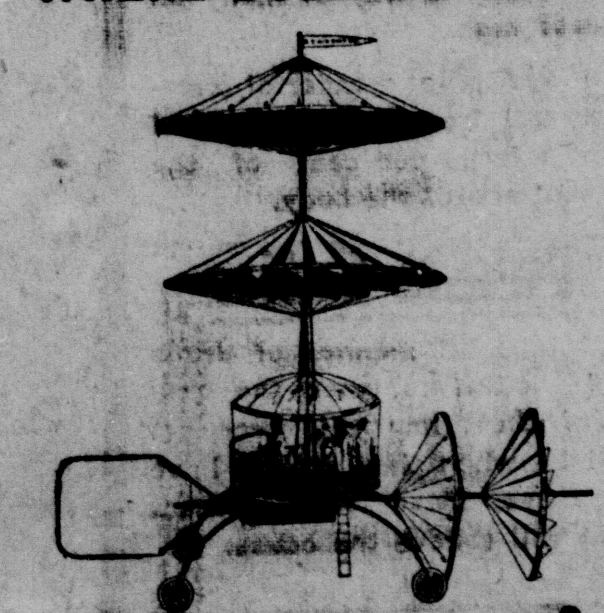

Weak Women

To weak and ailing women, there is at least one way to help. But with this way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the local treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all blood, and all food elements.

The former—Dr. Shoop's Night Cure—isa topical anesthetic suppository remedy, while Dr. Shoop's Restorative is a wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all blood, and all food elements.

DEATH OF FARM HANDS

Boone County Farmers Can't Get Help to Raise Crops.

Columbia, Mo., April 6.—Many Boone county farmers have about given up all hope of being able to secure sufficient help to carry on extensive farming operations. The day of the farm hands seems to have passed away as they are as scarce as the proverbial hen's tooth. A number of farmers are putting much of their land in grass on account of this state of affairs. Parties weary of the ceaseless turmoil and excitement of the city will find a welcome waiting back on the old farm if they care to avail themselves of it.

"Farm laborers are getting scarcer all the time," declared a farmer who lives near Columbia in speaking of the matter. "Those that are still on the job demand much higher wages than they did a few years ago and we have to 'come across' in order to secure their services. I know of several farmers who are going to put their fields in grass because they can't get reliable help to farm them otherwise. I tell you farm hands are becoming almost extinct."

WETS IN SADDLE

ILLINOIS YESTERDAY WENT BACK
ON ITS PREVIOUS
RECORD.

LIQUOR ELEMENT WAS VICTORIOUS

Many Places That Had Been Dry
Returned to Old Allegiance—
One Big City Stood True by
Lessened Majority.

St. Louis, April 6.—It was the wets' day yesterday in Illinois.

Many important cities which had been controlled by the dries went back again into the liquor column, while few cities of large size were gained by the anti-saloon forces.

Two hundred and forty towns and cities voted on the proposition, and, while the places of lesser importance apparently broke about even, there were many instances of reversal of the verdict of two years ago on both sides.

Statements made by officials of the liquor element in Illinois last night claim that the state in yesterday's election went 80 per cent wet, as against 65 per cent dry last year. This probably is an excessive claim, but the wets made great inroads into the ranks of their opponents.

Bloomington registered a decisive victory for the liquor forces, the majority there in their favor being three times that of the previous election.

Rockford went for the saloon element after having been dry for two years, a victory which caused much rejoicing on the part of the wets. Decatur was wrested from the dries by more than 500 majority, reversing a dry majority of 1,020 two years ago.

Mattoon is another city reclaimed by the wets. A fierce campaign there reached its climax on election day by charges of fraud and riots. Dry workers assert that with cameras they snapped advocates of the liquor traffic in the act of buying votes.

Springfield voted for the saloons by a majority of 1,315, which is a reduction of 500 from the result two years ago.

Galesburg went dry, but the majority was less by one-half than it was in the previous election. Belvidere, which was dry, went into the liquor column. Rock Island and Moline are wet by smaller majorities. Elgin remains wet, while Batavia and Geneva got off the water wagon. Pontiac declared in favor of the bars, after having been without them for two years.

Other towns that have dealt a blow to prohibition are DeKalb, Harvard, Sycamore, Dixon, Lacon and Clinton. Despite the bitterness which marked the campaign and the election, there were but few disorders.

The excitement at Danville, which was augmented by the fight Billy Sunday made in the interest of the dries, grew to such heat that on election morning in a near by town a riot was magnified by rumor into a riot and a call was put in for the militia. Later it was learned that the trouble could be handled by the local authorities.

RADIANT HAIR

EVERY WOMAN CAN HAVE IT
THESE MODERN DAYS.

Nothing keeps a woman youthful more than close attention to the hair. Any woman whose hair is dull, faded or lusterless cannot be either beautiful or attractive.

Dull hair casts around its owner an environment of stupidity, while the woman with brilliant, lustrous and luxuriant hair, though she may be far inferior in intellect than her dull haired sister, carries off the honors because of her resplendent hair.

In Paris, where plain women know how to make and keep themselves beautiful, the great hair dressing called Parisian Sage is much in demand.

And since the introduction of Parisian Sage into America, over three years ago, society women in all the large cities have learned that the easiest, quickest and surest way to turn lifeless, dull and unattractive hair into brilliant, lustrous and luxuriant hair is to use Parisian Sage.

Parisian Sage is sold by leading druggists in every town in America and by W. E. Bard Drug Co., who guarantees it to cure dandruff, stop falling hair and itching scalp in two weeks or money back.

Fifty cents for a large bottle of Parisian Sage. It is a most daintily perfumed hair dressing and it is not sticky or greasy. The girl with the Auburn hair is on every bottle.

Let us make that last year's suit look like new.—Owl Tailoring Co., 116 W. Third. Bell phone 361.

New Health Resort.

Hannibal, Mo., April 6.—A number of Hannibal physicians and business men have purchased a tract of land at Oakwood on which is located the mineral well and are planning to establish a health resort there in the near future. The curative properties

of the water from the well are said to be unusually valuable, especially for baths. It is the intention of the promoters of the resort to build a sanitarium and bath house first and a little later add a large swimming pool to the establishment. The grounds will be improved and everything made attractive and up-to-date.

NEWS OF THE RAIL

HARRIMAN DECLINED TO LET GOULDS HAVE ANY SOUTHERN PACIFIC STOCK.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

New York, April 6.—George J. Gould testified yesterday in the hearing before Special Examiner S. H. Williams in the suit of the government to break the Union Pacific-Southern Pacific merger to the effect that the late E. H. Harriman barred him from buying any of the Southern Pacific stock of the Huntington estate when the stock was sold off in 1900.

He said that Harriman seemed a little lukewarm at first about buying the Huntington stock. Gould, who was the chairman of the board of directors of the Denver & Rio Grande, which had no Pacific outlet save the Southern Pacific, suggested to Harriman that the Denver road would like to take some stock if Harriman did not want it. Harriman, according to Gould, declined to let either Gould or the Denver & Rio Grande obtain any of the stock. Harriman stood out for a half interest in the Denver & Rio Grande, so Gould testified. Gould placed the date of these negotiations at about September, 1900.

FOR AGED PEOPLE

Old Folks Should Be Careful in Their Selection of Regulative Medicine.

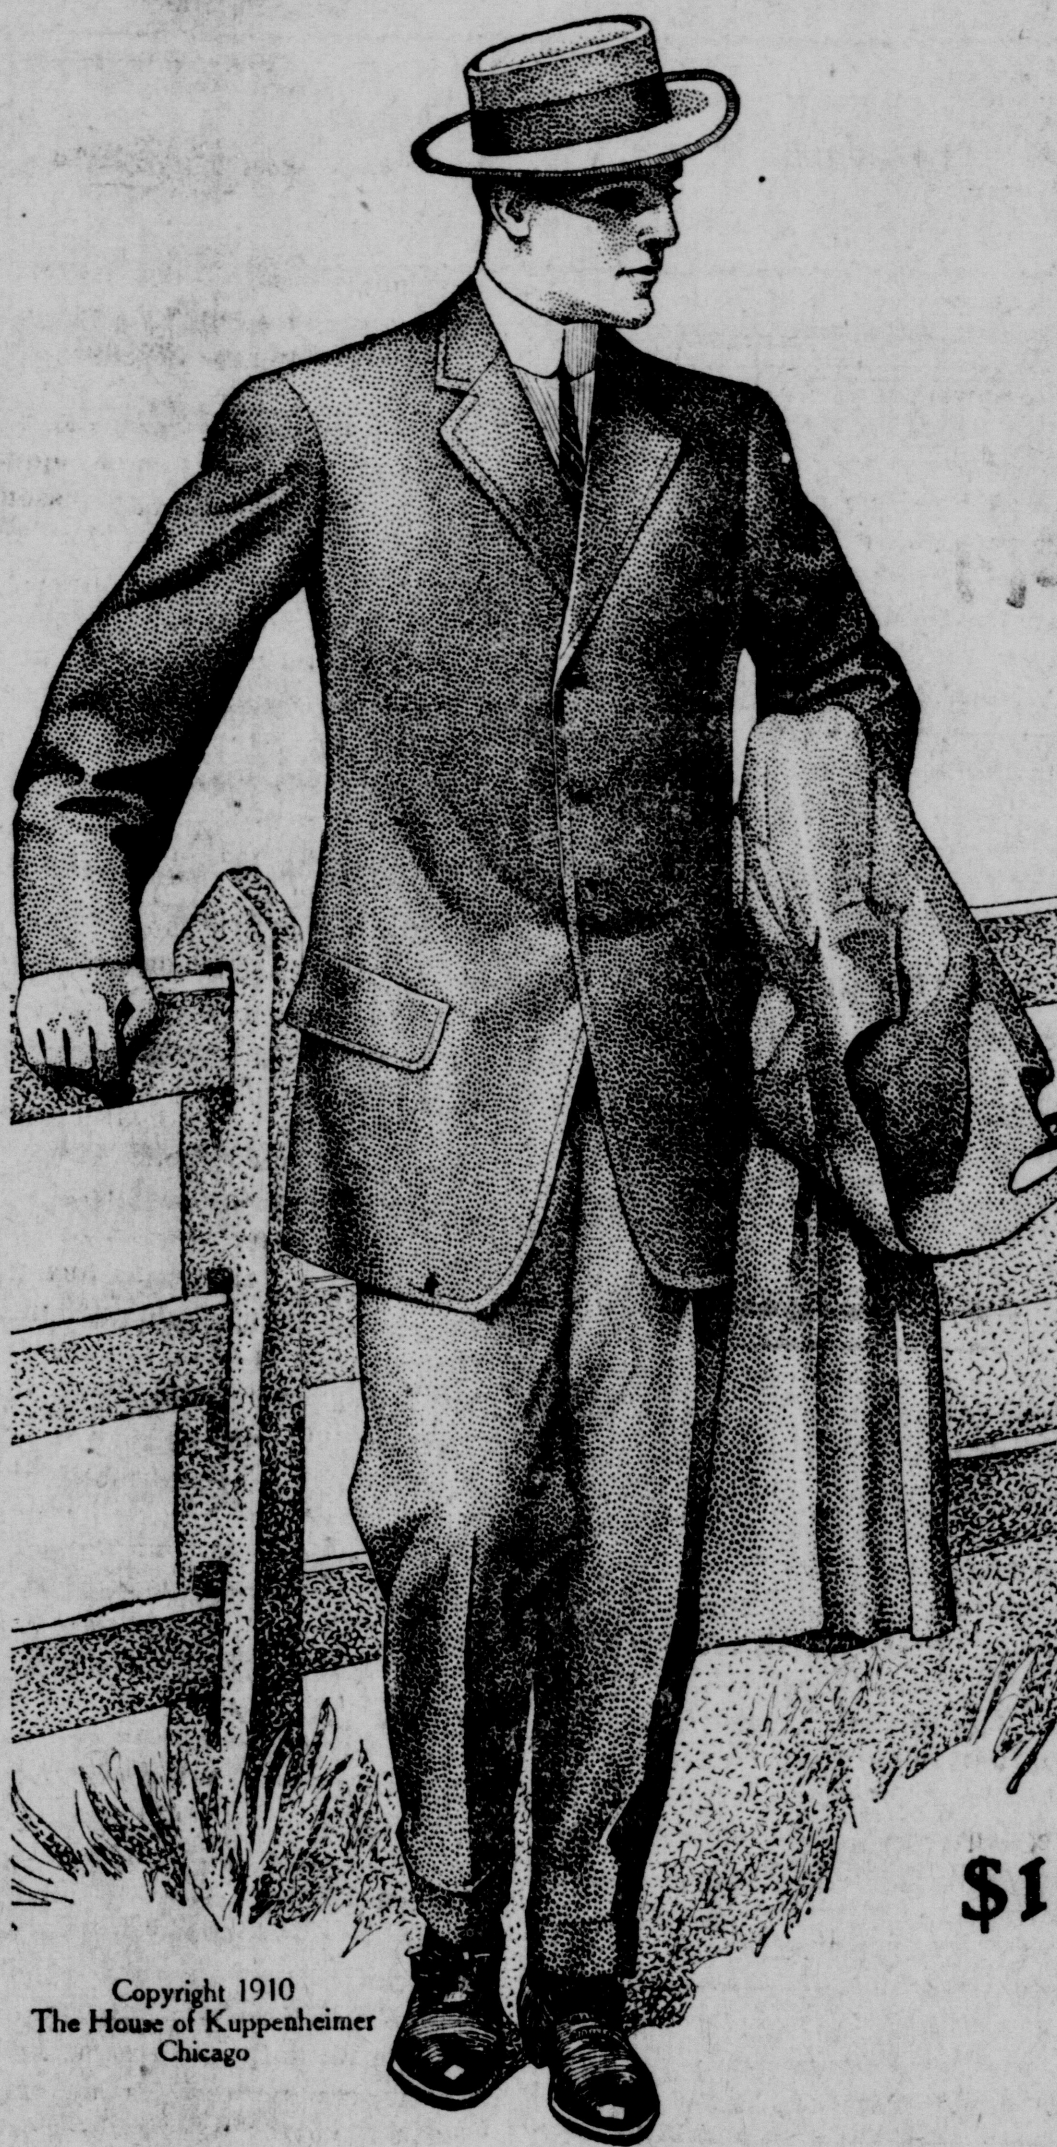

With advanced age comes inactive bowel movement and sluggish liver. Nature is unable to perform her proper functions and requires assistance. Otherwise, there is constant suffering from constipation and its attendant evils. Old folks should never use physic that is harsh and irritating.

We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitution who suffer from constipation or other bowel disorder. We are so certain that it will completely relieve these complaints and give absolute satisfaction in every particular that we offer them with our personal guarantee that they shall cost the user nothing if they fail to substantiate our claims. This remedy is called Rexall Orderlies.

Rexall Orderlies are eaten like candy. They have a soothing, healing, strengthening tonic and regulative action upon the dry mucous lining and the relaxed muscular coat of the bowel. They produce a natural successive contraction and relaxation of the muscular fibres of the bowel walls, generating a wave-like motion which forces their contents onward and outward; thus stimulating nature in perfect bowel movement. They tone up and strengthen the nerves and muscles and restore the bowels and associate organs to more vigorous and healthy activity. They may be taken at any time without inconvenience; do not cause any griping, nausea, diarrhoea, excessive looseness, flatulence or other disagreeable effect. Try Rexall Orderlies on our guarantee: 36 tablets 25 cents, and 12 tablets 10 cents. Remember you can obtain Rexall Remedies in Sedalia only at our store, The Rexall Store—Arlington Pharmacy.

Postponed a Reception.

The reception to have been given at the home of Mrs. Sam Otis, on North Prospect avenue, tomorrow evening, has been postponed. It will take place the afternoon and evening of Thursday, April 14.

Who buys the stock for this store? In a broad sense our customers do

We buy not what we want, but what our patrons want. They are the people to convince, not us.

There you have the keynote of our store policy.

We keep close to the people, study their needs and preferences, buy what we know will please them and give unusual satisfaction.

We have bought our spring and summer clothes for Men and Young Men from

The House of Kuppenheimer

because the clothes made by this unequalled tailoring organization are what the men of this community prefer. They like the style. They know the quality. They have the protection of the Kuppenheimer label. They're the clothes that the best dressed men—the connoisseurs—in every community demand.

We offer you the very latest patterns, the choicest weaves, both domestic and imported fabrics, in Spring and Summer clothes for men and young men, designed and fashioned in the true Kuppenheimer style.

High School Exercises.

The weekly exercises at the High school this morning were conducted by the Rev. R. C. Miller, of the East Sedalia Baptist church, who gave an interesting talk, his subject being taken from the Old Testament in the Bible, about Aman and Mardachai.

He brought out very forcibly the character of Aman and his selfishness. It was followed by a violin solo, with an encore, by Ervin Hobericht, a member of the Freshman class.

The assembly closed with an announcement by Miss Letts, the principal, of the Philomathian play to be given Friday night, which promises to be an exceptionally good production.

There is no cough medicine so popular as Foley's Honey and Tar. It never fails to cure coughs and colds and is especially recommended for chronic and bronchial coughs. Sold by Arlington Pharmacy.
